Do you like the new face of our newsletter? Please let us know if we can send it to you via email. This saves on our printing costs.

For our member's best interest please keep us updated in regard to their medication. We need these regular updates in case on emergency for fast and effective help.

Over the last few weeks we experienced many cold rainy days, so indoor activities took precedence. Scrabble and other word construction games were popular. This kind of activities helps to keep language skills and reading abilities alive.

The Karori Rotary Club volunteers worked on 19th and 25th of September. They cleaned out the front and back yard, painted our carport and fence, also planted young bushes.

Our Work therapist's new project: making a letter box for the club.

Everybody enjoyed our visits to Oriental Bay.

On the few nice sunny days we were able to visit the Botanical Gardens again. This gardens are very beautiful in spring.

Working with different puzzles is one of the most popular activities...so we bought more new puzzles. More choice more fun.

Warm regards from Marsden Club
